IMPORTANT: New System for Reporting Absence – ‘Studybugs’

We are now trialling a new system for reporting your child's absence from school due to illness etc. The system is called Sickly and is available as a **free app** for the iPhone, Android and Windows phone or can be used through the Sickly web site <https://www.studybugs.org>

This app allows you to register your child's absence directly onto our attendance system and informs us immediately that your child is away and why, without any cost to you. It also allows both parents and school to monitor any outbreaks of illnesses in the area and keeps you informed of your child's attendance percentage. The more parents that download the app, the more successful the system will be. **Please download the free app today!** The app works with all major phone brands and on the computer. It can be found at google play, on the app store or by searching google for 'sickly'.
